Council for Responsible Nutrition (CRN) and ASNF Scholars Program (CAPS)

Deadline to Apply: August 18, 2023

The Council for Responsible Nutrition (CRN) and ASN Foundation (ASNF) are pleased to provide study enrichment for graduate students in nutrition.

The CRN and ASNF Program for Scholars (CAPS) will provide up to three ASN graduate student members* with educational scholarships to attend this year's CRN "Science in Session" annual event which will be held in-person on October 3, 2023, at the RitzCarlton, Laguna Niguel in Dana Point, CA. CRN is celebrating its 50th anniversary and this year's event will focus on the evolution of science on dietary supplements.

For the "Science in Session" agenda, please visit

Application Requirements

All nominations must be submitted via the ASN Foundation Portal. Incomplete or late nominations will not be considered.

*The following information will be required during the application process:

- Confirmation of ASN membership
- Confirmation of Continental US-based location
- Diversity demographic data
- Degree in progress and expected year of completion
- Area of study
- Current cumulative GPA

- Required upload: Current resume or CV (PDF)
- Personal statement of applicant's educational and career objectives and how participation in this opportunity would benefit personal goals (no more than 3,500 characters not including spaces)
- Prior involvement with ASN (e.g., volunteer leadership position(s), abstracts presented, manuscripts submitted)

Selected scholars will be expected to attend this CRN Science in Session event in person from October 2-4, 2023. Scholars will be provided standard coach roundtrip airfare within continental US, 2-night hotel accommodations and a daily stipend for ground transportation and other incidentals. Flight and hotel accommodations must be made through the ASNF. Additional instructions will be provided to the selected scholars.
